Dear Dr. Surinder Ahuja,

I am writing this letter to let you know that my stay at Glengariff was a pleasant one. This was due to many reasons. The first being the caring of your staff and yourself. I have done nothing more than compliment the rehab that I received at your facility. I would like to mention some of the people who helped me through this important time in my recovery.

I was on the second floor during my stay, and came across many nurses and staff there. The following people I would like to commend for their caring are:
Yvonne Plaza and Vivian (last name not known) nurses who in my thoughts for the care they gave to me. The following two ladies aids Dolly Harvy and Mohanie Sookdeo, they made my mornings and days cheerful. They went beyond their normal duties to make sure I was well attended to. These ladies were the best as far as I was concerned.

Then came my therapy. Well as you had said to me once, your therapy department was the best. Well you are right. You have the best therapist, who are caring and work hard to make sure everyone is given the best therapy. I had two ladies I have to let you know about. The first is Lisa Harvey, she was my PT person. I can not say enough about her. She worked with me to make sure I succeeded as far as I did. I was very nervous when I came into therapy, but she made me feel comfortable and each day I found myself going forward because of her. Then there was Joan OT, she also worked with me to make sure I would be able to do things for myself when I returned home, and to build up my upper body. She was very helpful in many ways.

These are just a few that touched my heart. I hope you will let them know how they were appreciated.

Thank you.

I will be having the second knee done next year, and look forward to returning.

Sincerely,

Barbara Maier
